# 1986 EDITORIAL SUBJECT INDEX *

*CONTROL ENGINEERING Volume 33 . . . January-December 1986*

(N) News (ED) Editorial 2Oct—October 2nd Edition

* For a directory to control products and companies, see CONTROL ENGINEERING's 1987 Control Product Specifier issue, November 1986, 2nd Edition.

## A

**AC DRIVES**

AC motor drives 1986: silicon devices up regulation. Bailey, S. ... Apr 101

**ACTUATORS**

Controlling multiple robot arms. Morris, H. . Sep 144
In-between automation: pick-and-placers plus X-Y positioning tables fill the gap .. Jan 41
Materials changing in process control valves. Blickley, G. ... Sep 132
New developments in actuation systems for flight control. Pressdee, A. ... Aug 142
Parabolic velocity profile allows maximum stepper torque. Palmin, S. ... Feb 62
Perspective on hydraulic drives versus competition. Henke, R. ... Jun 67
Servo valve becomes digital actuator. Blickley, G. ... Jun 76
Servomotor and stepper: key elements of motion control. Bailey, S. ... Feb 55
Stepper motor control using EMF commutation. King, K. ... Dec 144

**ADAPTIVE CONTROL**

Adaptive switching power supply. Williamson, F. ... Apr 222

**AMPLIFIERS, see Power supplies and controllers**

**ANALYSIS INSTRUMENTS**

On-line analyzers—searching for in-line status. Blickley, G. ... Dec 40

**ARTIFICIAL INTELLIGENCE**

Artificial intelligence in industry: expert knowledge bases in control loops. Bailey, S.. Dec 45

**ANNUNCIATORS, see Data display**

**AUTOMATIC FACTORY, see Manufacturing control**

## B

**BATCHING, see Weighing and batching**

**BATTERIES**

Proton-conducting polymer suits many applications (N) ... Jan 30

**BUSINESS**

1985 control market expands in the analog arena. Laduzinsky, A. ... Sep 13
A-B and Data General enter agreements (N) Dec 23
AEG acquires Modcomp (N) ... Jul 26
Allen-Bradley enlarges communications division (N) ... Jul 23
Allen-Bradley signs MAP agreement (N).... Nov 28
ASEA selects Modcomp for control distribution (N) ... Nov 28
Codenoll and Kaypro announce agreement (N) ... Nov 30
Codenoll enters pacts with Computrol, 3Com (N) ... Aug 21
Combustion Engineering to buy Sprout-Waldron (N) ... Jun 23
Computer-based control standards develop. Laduzinsky, A. ... Mar 13
Confusion of choices (ED) ... Mar 45
Control markets head up cautiously for 1986 (ED) ... Jan 49
Daniel Industries acquires Bell Microsensors (N) ... Sep 42
Emerson to create new Rosemount subsidiary (N) ... Sep 26
Employees buy AMF's control systems division (N) ... Apr 32
Forney Engineering to market Black & Veatch system (N) ... Sep 44
Foxboro and DEC initiate integrated systems pact (N) ... Jul 25
GE, Fanuc plan factory automation company (N) ... Aug 21
General Instrument sells business systems division (N) ... Apr 29
Gould buys Vision Systems (N) ... Apr 27
Gould restructures into four units (N) ... Mar 26
Hagglunds acquires Abex Denison Group (N) ... Oct 23
Honeywell and Sarasota sign interface agreement (N) ... Dec 20
Honeywell forms systems integration operation (N) ... May 22
Honeywell reorganizes, announces NEC venture (N) ... Nov 25
HP, Ungermann-Bass to market networking products (N) ... Aug 24
IBM joins Measurex, INI, in automation agreements (N) ... Mar 25
ICOT acquires Integrated Network Systems (N) ... Oct 26
If you believe in fairies, clap your hands. Laduzinsky, A. ... Aug 13
Intel and INI to market MAP products (N) Jul 23
Intel, Microsoft develop systems design (N) Nov 31
Keys to the automation kingdom. Laduzinsky, A. ... Feb 13
Keystone in 3-way merger (N) ... Aug 22
Management's 1986 act: reorganize! (ED) Feb 49
Microcosmic control: Part 2. Laduzinsky, A. Jan 13
Motorola strengthens its supermicrocomputer market (N) ... Nov 29
National Semiconductor creates two new groups (N) ... Jun 22
Parker Hannifin acquires Compumotor (N) May 22
Parker Hannifin acquires two companies (N) Jul 23
Philips and Vitelic in joint venture (N) ... Jun 21
Rosemount acquires Xertex (N) ... Dec 24
Rosemount establishes analytical division (N) ... Nov 26
RTE sells motor businesses (N) ... Oct 28
Semiconductor agreement to foster U.S.-Japan trade (N) ... Oct 24
Should product planning follow markets or technology? Kompass, E. ... Dec 13
Siemens acquires Minstar's Potter & Brumfield (N) ... Apr 24
Tandem Computer's factory automation agreement (N) ... Dec 24
Tandem signs agreements (N) ... Apr 30
Tandon divides operations (N) ... Oct 23
TI buys ETI Micro (N) ... May 21
Tracor Westronics goes international (N) .. Oct 28
Trends in control (Acquisition mania) ... Feb 152
Trends in control (The real action is in manufacturing automation) ... Jan 160
Trends in control (Cooperation between end users and control suppliers) ... Mar 216
Trends in control (Finding the perfect discrete part manufacturing control engineer) ... Dec 154
Trends in control (Process companies cutting back control engineers) ... Jun 182
Trends in control (Control engineers available) ... Aug 150
Trends in control (Newcomer suppliers to process control) ... Sep 306
Trends in control (Cutbacks in control engineering staffs) ... Oct 162
Trends in control (The cost of long term benefits) ... Nov 178
Triplex gets Tandem investment, TI support (N) ... May 23
TRW sells resistive products business (N) .. Dec 23

## C

**COMPANIES**

A-B and Concord complete MAP interoperability testing (N) ... May 22
A-B and Data General enter agreements (N) Dec 23
A-B announces software (N) ... Jan 23
AEG acquires Modcomp (N) ... Jul 26
Allen-Bradley enlarges communications division (N) ... Jul 23
Allen-Bradley signs MAP agreement (N).... Nov 28
AMD is alternate source for Siemens controllers (N) ... Oct 26
Arizona State integrates CIM laboratory (N) Feb 24
ASEA selects Modcomp for control distribution (N) ... Nov 28
C-E's Lummus Crest announces reorganization (N) ... Feb 20
Codenoll and Kaypro announce agreement (N) ... Nov 30
Codenoll enters pacts with Computrol, 3Com (N) .. Aug 21
Combustion Engineering to buy Sprout-Waldron (N) ... Jun 23
Concord, AT&T jointly develop MAP on fiber optics (N) ... 2Oct 11
Corning contributes to FDDI LAN standard (N) ... Jan 28
Corporation for Open Systems adds four (N) ... Jul 24
COS adds four; appoints new president (N) May 21
COS invites international membership; adds members (N) ... Aug 22
Dale Electronics acquired by joint venture (N) ... Feb 21
Daniel Industries acquires Bell Microsensors (N) ... Sep 42
Data General, A-B, in MAP agreement (N) 2Oct 11
Emerson to create new Rosemount subsidiary (N) ... Sep 26
Employees buy AMF's control systems division (N) ... Apr 32
Fisher Controls restructures (N) ... Apr 23
Forney Engineering to market Black & Veatch system (N) ... Sep 44
Foxboro and DEC initiate integrated systems pact (N) ... Jul 25
GE and Brown, Boveri to produce IGBTs (N) Feb 21
GE, Fanuc plan factory automation company (N) ... Aug 21
General Instrument sells business systems division (N) ... Apr 29
Gould buys Vision Systems (N) ... Apr 27
Gould restructures into four units (N) ... Mar 26
Gould's Ylvisaker retires (N) ... Oct 23
Hagglunds acquires Abex Denison Group (N) ... Oct 23
Hewlett-Packard introduces first RISC-based products (N) ... Mar 24
Honeywell and Sarasota sign interface agreement (N) ... Dec 20

## C

**COMPANIES**

A-B and Concord complete MAP interoperability testing (N) ... May 22
A-B and Data General enter agreements (N) Dec 23
A-B announces software (N) ... Jan 23
AEG acquires Modcomp (N) ... Jul 26
Allen-Bradley enlarges communications division (N) ... Jul 23
Allen-Bradley signs MAP agreement (N).... Nov 28
AMD is alternate source for Siemens controllers (N) ... Oct 26
Arizona State integrates CIM laboratory (N) Feb 24
ASEA selects Modcomp for control distribution (N) ... Nov 28
C-E's Lummus Crest announces reorganization (N) ... Feb 20
Codenoll and Kaypro announce agreement (N) ... Nov 30
Codenoll enters pacts with Computrol, 3Com (N) .. Aug 21
Combustion Engineering to buy Sprout-Waldron (N) ... Jun 23
Concord, AT&T jointly develop MAP on fiber optics (N) ... 2Oct 11
Corning contributes to FDDI LAN standard (N) ... Jan 28
Corporation for Open Systems adds four (N) ... Jul 24
COS adds four; appoints new president (N) May 21
COS invites international membership; adds members (N) ... Aug 22
Dale Electronics acquired by joint venture (N) ... Feb 21
Daniel Industries acquires Bell Microsensors (N) ... Sep 42
Data General, A-B, in MAP agreement (N) 2Oct 11
Emerson to create new Rosemount subsidiary (N) ... Sep 26
Employees buy AMF's control systems division (N) ... Apr 32
Fisher Controls restructures (N) ... Apr 23
Forney Engineering to market Black & Veatch system (N) ... Sep 44
Foxboro and DEC initiate integrated systems pact (N) ... Jul 25
GE and Brown, Boveri to produce IGBTs (N) Feb 21
GE, Fanuc plan factory automation company (N) ... Aug 21
General Instrument sells business systems division (N) ... Apr 29
Gould buys Vision Systems (N) ... Apr 27
Gould restructures into four units (N) ... Mar 26
Gould's Ylvisaker retires (N) ... Oct 23
Hagglunds acquires Abex Denison Group (N) ... Oct 23
Hewlett-Packard introduces first RISC-based products (N) ... Mar 24
Honeywell and Sarasota sign interface agreement (N) ... Dec 20

Honeywell establishes systems integration operation in Phoenix (N) ..... May 22
Honeywell reorganizes, announces NEC venture (N) ..... Nov 25
Honeywell to participate in OSINET (N) .... 2Oct 12
Honeywell, Triconex to develop technology (N) ..... Feb 19
HP debuts high-end workcell control; industrializes Vectra (N) ..... Aug 21
HP, Ungermann-Bass to market networking products (N) ..... Aug 24
IBM, INI jointly develop PC-MAP interface (N) ..... 2Oct 11
IBM joins Measurex, INI, in automation agreements (N) ..... Mar 25
ICOT acquires Integrated Network Systems (N) ..... Oct 26
Inficon Leybolt-Heraeus acquires Fluid Precision (N) ..... Feb 20
Intel and customers to develop real-time system (N) ..... Jan 21
Intel and INI to market MAP products (N) . Jul 23
Intel develops interface; introduces control system (N) ..... Dec 24
Intel, Microsoft develop systems design (N) Nov 31
Keystone in 3-way merger (N) ..... Aug 22
Lab certifies VMEbus boards (N) ..... Jan 25
Micro Switch adds fiber optic switches and sensors (N) ..... Jun 26
Motorola strengthens its supermicrocomputer market (N) ..... Nov 29
National Semiconductor creates two new groups (N) ..... Jun 22
Parker Hannifin acquires Compumotor, enters venture (N) ..... May 22
Parker Hannifin acquires two companies (N) Jul 23
Philips and Vitelic in joint venture (N) ..... Jun 21
Rexnord automation: unity from diversity (N) Jan 21
Rosemount acquires Xertex (N) ..... Dec 24
Rosemount establishes analytical division (N) ..... Nov 26
RTE sells motor businesses (N) ..... Oct 28
SAMA announces organizational changes (N) ..... Mar 25
Schlumberger and Sun sign agreement (N) Feb 22
Semiconductor agreement to foster U.S.-Japan trade (N) ..... Oct 24
Siemens acquires Minstar's Potter & Brumfield (N) ..... Apr 24
Siemens semiconductor group to Silicon Valley (N) ..... Aug 22
Siemens strengthens U.S. position (N) ..... Jan 21
Siemens supports Multibus II architecture (N) ..... Jul 25
Siemens-Allis changes name (N) ..... Mar 25
Tandem announces factory automation agreement (N) ..... Dec 24
Tandem signs agreements (N) ..... Apr 30
Tandon divides operations (N) ..... Oct 23
Tektronix expands hybrid components operation (N) ..... Feb 21
TI and Touch join in MAP/TOP demonstration (N) ..... Jun 21
TI buys ETI Micro (N) ..... May 21
Tracor Westronics goes international (N) . Oct 28
Trends in control (Acquisition mania) ..... Feb 152
Trends in control (Newcomer suppliers to process control) ..... Sep 306
Triplex gets Tandem investment, TI support (N) ..... May 23
TRW sells resistive products business (N) .. Dec 23
UL issues first Japanese factory registration (N) ..... Feb 19
Watlow purchases Claud S. Gordon Co. (N) Feb 19

**COMPUTER CONTROL**

Analog computer on a chip ..... Apr 76
Artificial intelligence in industry: expert knowledge bases in control loops. Bailey, S.. Dec 45
Computer-based control standards develop. Laduzinsky, A. ..... Mar 13
Computers' destiny—stand alone or embedded in process. Bailey, S. ..... Oct 68
Future for PCs in industrial control (ED) .... Nov 69
If you believe in fairies, clap your hands. Laduzinsky, A. ..... Aug 13
Integrating computers with power (ED) ..... Jun 45
Intel develops interface (N) ..... Dec 24
Lack of surface activity indicates a new turn in industrial control. Laduzinsky, A. ..... Nov 13
Minicomputers in control: optimized for performance. Babb, M. ..... Apr 108
Minicomputers need board-level functionality too. Laduzinsky, A. ..... Jun 51
Standard board-level computer functions still evolve. Laduzinsky, A. ..... Jun 52

**COMPUTER PERIPHERAL DEVICES**

Bubble memory system replaces disk drives. Babb, M. ..... Oct 86
Computer peripherals control factory data flow. Babb, M. ..... Nov 74
Control system memories: help yourself to all you want. Babb, M. ..... Jun 59
Core memories for work at 200 C ..... Apr 66
Genealogy of tape technology. Thawley, T. Aug 82
Inexpensive black box expands memory on CNC machine tools ..... Apr 72
Memory moves across the factory floor ..... Oct 46
Object identification takes many shapes and stripes. Laduzinsky, A. ..... Oct 81
Smart terminals moving to factory floor. Babb, M. ..... Nov 71

**COMPUTER SOFTWARE, see Software, control**

**COMPUTERS**

Conversing with computers and robots. Morris, H. ..... Aug 55
Hewlett-Packard introduces first RISC-based products (N) ..... Mar 24

**COMPUTER-INTEGRATED MANUFACTURING, see Manufacturing Control**

**CONTROL ENGINEERS, PROFESSIONAL DEVELOPMENT**

12th Advanced Control Conference: advanced techniques that made it. Morris, H. Jul 67
Engineering education never takes a vacation. Axelson, B. ..... Apr 119
G-64 bus magazine introduced (N) ..... Jan 30
Learning more about MAP and TOP (N) ... Jan 25
Should product planning follow markets or technology? Kompass, E. ..... Dec 13
Technical reference tool for the nontechnical (N) ..... Jan 26
They wrote the book on high tech (N) ..... Jan 28
Trends in control (Control engineers available) ..... Aug 150
Trends in control (Cutbacks in control engineering staffs) ..... Oct 162
Trends in control (Process companies cutting back control engineers) ..... Jun 182
Trends in control (The cost of long term benefits) ..... Nov 178

**CONTROL SIGNAL TRANSMISSION, see Data transmission**

**CONTROLLERS, see Process controllers, also Power supplies and controllers, also Programmable controllers**

**CRT DISPLAYS, see Data display**

## D

**DATA ACQUISITION**

Data acquisition on track ..... Sep 76
Field multiplexer reduces process control costs. Del Valle El Cid, J. ..... Jan 148

**DATA BUSES**

Bitbus network development simplification (N) ..... Feb 20
Bus eases overhead, simplifies use ..... Sep 81
BUSCON/86 East: board-level strategies (N) ..... Sep 29
Conformance issues become prime target for revised standards. Whitinger, B. ..... Aug 70
DEC announces new minis and Bitbus architecture (N) ..... Mar 23
Genealogy of tape technology. Thawley, T. Aug 82
ISA show: displaying the IBM PC bus (N) . Nov 25
J11-based board interfaces VAX or microVAX to VMEbus. Laduzinsky, A. ..... Aug 76
Lab certifies VMEbus boards (N) ..... Jan 25
Of boards and buses. Laduzinsky, A. ..... Jun 13
Personal computer backplanes and other connections. Laduzinsky, A. ..... Jun 48
Selecting memory for the STD Bus. Schmidt, F. ..... Dec 70
Siemens supports Multibus II architecture (N) ..... Jul 25
Sixteen bits on the STD Bus: two methods of implementation. Steele, B. ..... Dec 68
Standard backplanes: new perspective on industrial control. Laduzinsky, A. ..... Jun 47
STD Bus goes after midrange programmable controllers. Virgo, P. ..... Dec 75
STD Bus moving on to 16 bits. Babb, M.... Dec 61
Using the STD Bus as an auxiliary I/O bus. Lehrbaum, R. ..... Dec 72
Variations on a bus. Laduzinsky, A. ..... Mar 81
VMEbus delivers promised performance. Laduzinsky, A. ..... Aug 65

**DATA DISPLAY**

Alarms and annunciators: keeping the lid on. Babb, M. ..... Feb 79
Graphics package for access to programmable controllers. Babb, M. ..... Mar 79
Modcomp Inc. to market real-time graphics software (N) ..... Mar 28
Programmable display modules reduce control panel size ..... Jun 36
Video interface draws a bead on operator control panels. Babb, M. ..... Mar 76

**DATA HIGHWAYS, see Local area networks**

**DATA TRANSMISSION**

Carrier band network and mini-MAP solutions. Granbe, M. ..... 2Oct 30
Data acquisition on track ..... Sep 76
Fiber optics connect to lowest level of process control. Blickley, G. ..... Aug 43
Manufacturing systems integrated by information and control. Ash, R. ..... May 67
Modular packaging impacts signal conditioning and control. Laduzinsky, A. ..... Sep 154
New industrial control networks: can they survive? Babb, M. ..... Mar 51
New MAP networks accommodate existing plant systems. Trotter, G. ..... Nov 105
Participation invited on network layer standards (N) ..... May 24
Riding on the PC bus: new avenues to industrial automation. Babb, M. ..... Oct 64
Serial bus puts personal computer in distributed control. Babb, M. ..... Oct 62
Smart transmitters in control: new performance, benefits. Babb, M. ..... Sep 120
Smart transmitters communicate digitally. Babb, M. ..... Sep 126
Using fiber optics to communicate with factory devices. Babb, M. ..... Aug 39
Using RS-511 for real-time communications in the factory. Sweeton, D. ..... Nov 111

**DISTRIBUTED CONTROL**

Control grows upward from the process (ED) ..... Oct 39
Control moves closer to the process. Blickley, G. ..... Sep 150
Controllers in the field: at last! (ED) ..... Aug 37
Distributed control system with parallel processing. Kompass, E. ..... Jul 62
Process-embedded decision booms in distributed control. Bailey, S. ..... Nov 80
Serial bus puts personal computer in distributed control. Babb, M. ..... Oct 62
Two new distributed process control systems. Laduzinsky, A. ..... Jan 84
Would SCADA by any other name still be the same? Laduzinsky, A. ..... Feb 72

## E

**EDITORIALS**
1986: A Year To Remember? ..... Dec 39
Beware the siren song of top-down automation (ED) ..... Sep 97
Confusion of choices (ED) ..... Mar 45
Control grows upward from the process (ED) ..... Oct 39
Control markets head up cautiously for 1986 (ED) ..... Jan 49
Controllers in the field: at last! (ED) ..... Aug 37
Slow seems the road to MAP (ED) ..... 2Oct 13
Factory automation is a long-term effort (ED) ..... May 47
Future for PCs in industrial control (ED) .... Nov 69
Integrating computers with power (ED) ..... Jun 45
Management's 1986 act: reorganize! (ED) Feb 49
Once again, with feeling: CIM is not MIS (ED) Apr 81
Superminicomputers for industrial control? (ED) ..... Jul 41

**EDUCATION, See Control engineers, professional development**

**ENERGY CONSERVATION AND CONTROL**
Efficient process control system keeps Disney community bright ..... Sep 90
Out of control at Chernobyl (N) ..... Jul 21
Safe and efficient combustion control requires selecting the right sensors. Pocock, R. ..... May 155
Steam regulator eliminates fluctuations, achieves payback in two months ..... Nov 60

## F

**FAULT TOLERANCE**
Honeywell, Triconex to develop technology (N) ..... Feb 19

**FIBER OPTICS**
Concord, AT&T develop fiber optic MAP (N) 2Oct 11
Corning contributes to FDDI LAN standard (N) ..... Jan 28
Fiber optics connect to lowest level of process control. Blickley, G. ..... Aug 43
Using fiber optics to communicate with factory devices. Babb, M. ..... Aug 39

**FLOW**
Flow control 1986: smart meters essential to compete. Bailey, S. ..... Mar 63
Flow lab automates with computer to obtain higher accuracy ..... Dec 32

**FLUID POWER**
Perspective on hydraulic drives versus competition. Henke, R. ..... Jun 67

## G

**GRAPHIC DISPLAYS, see Data display**

## H

**HIERARCHICAL CONTROL, see Computer control**

**HYDRAULICS, see Fluid power**

## I

**INDUSTRIAL CONTROL, see Manufacturing control**

**INTEGRATED CIRCUITS**
Analog computer on a chip ..... Apr 76
Chips to transmitters: new pressure technology gets going. Babb, M. ..... Jan 64
ISSCC/86: systems on a chip. Kompass, E. Apr 125
Monolithic digital pulse width modulator simplifies servo motor control ..... Sep 84
Power integrated circuits: know the limitations. Payne, H. ..... Jul 122
Research in VLSI increases in Europe. Lee-Frampton, J. ..... Oct 91

**INTERFACING WITH COMPUTERS**
Evolving networks for plant-wide information and control systems. Thurston, C. ..... Sep 284
Fiber optics connect to lowest level of process control. Blickley, G. ..... Aug 43
J11-based board interfaces VAX or microVAX to VMEbus. Laduzinsky, A. ..... Aug 76
Using fiber optics to communicate with factory devices. Babb, M. ..... Aug 39

## L

**LEVEL**
Control switches safeguard pipeline's compressor stations ..... Feb 44
Level sensing technology rises to logistic demand. Bailey, S. ..... Jul 73

**LOCAL AREA NETWORKS**
A MAP/TOP spec. update. Crowder, R. .... 2Oct 18
Carrier band network and mini-MAP solutions. Granbe, M. ..... 2Oct 30
Concord, AT&T jointly develop MAP on fiber optics (N) ..... 2Oct 11
Corning contributes to FDDI LAN standard (N) ..... Jan 28
Corp. for Open Systems expands participation (N) ..... Mar 24
Dance to the music. Laduzinsky, A. ..... 2Oct 4
Data General, A-B, in MAP agreement (N) 2Oct 11
GM's McDonald: proud of MAP (N) ..... 2Oct 8
Honeywell to participate in OSINET (N) .... 2Oct 12
HP, Ungermann-Bass to market networking products (N) ..... Aug 24
IBM, INI jointly develop PC-MAP interface (N) ..... 2Oct 11
LAN and MAP: sharing the factory of the future. Smith, S. ..... Mar 208
MAP and the process industries. Merrick, M. 2Oct 26
MAP network management and administration. Morris, G. ..... 2Oct 23
Microcosmic control: Part 2. Laduzinsky, A. Jan 13
Migrating toward MAP. Zak, M. ..... 2Oct 20
Movement around MAP continues to accelerate. Laduzinsky, A. ..... 2Oct 16
New industrial control networks: can they survive? Babb, M. ..... Mar 51
New MAP networks accommodate existing plant systems. Trotter, G. ..... Nov 105
RS-511 nears reality for layer seven. Hagar, M. ..... 2Oct 32
Slow seems the road to MAP. (ED) ..... 2Oct 13
Trends in control (Local area networks in the factory) ..... 2Oct 42
Using RS-511 for real-time communications in the factory. Sweeton, D. ..... Nov 111
Working MAP demo in UK (N) ..... 2Oct 12

## M

**MACHINE CONTROL**
Inexpensive black box expands memory on CNC machine tools ..... Apr 72
Should you connect CNC to CIM or first convert to DNC? Morris, H. ..... May 56

**MACHINE VISION, also see Positioning**
Robots see in 3-D. Morris, H. ..... Jan 72

**MAN-MACHINE INTERFACING**
Alarming with serial signals. Morris, H. ..... May 79
Alarms and annunciators: keeping the lid on. Babb, M. ..... Feb 79
Conversing with computers and robots. Morris, H. ..... Aug 55
Graphics package for access to programmable controllers. Babb, M. ..... Mar 79
Modcomp Inc. to market real-time graphics software (N) ..... Mar 28
Programmable display modules reduce control panel size ..... Jun 36
Video interface draws a bead on operator control panels. Babb, M. ..... Mar 76

**MANUFACTURING CONTROL**
AMS/86: large IMPACT (N) ..... Aug 21
Beware the siren song of top-down automation (ED) ..... Sep 97
Artificial intelligence in industry: expert knowledge bases in control loops. Bailey, S. . Dec 45
Big and small of industrial control. Laduzinsky, A. ..... Oct 13
Canadian GE builds an automated plant. Morris, H. ..... Feb 87
Cell controllers—an emerging technology. Blanchar, D. ..... Nov 170
Computer integrated manufacturing to star at Autofact/86. Axelson, B. ..... Oct 76
Evolving networks for plant-wide information and control systems. Thurston, C. ..... Sep 284
Factory automation is a long-term effort (ED) ..... May 47
Factory automation requires closing/connecting all loops. Laduzinsky, A. ..... May 51
Factory automation looks to systems integrators. Babb, M. ..... May 60
Forging facility automated—from top to bottom ..... Mar 40
Future for PCs in industrial control (ED) .... Nov 69
GE, Fanuc plan factory automation company (N) ..... Aug 21
Horizon plant. Dallimonti, R. ..... May 72
HP debuts high-end workcell control; industrializes Vectra (N) ..... Aug 21
Implementing MAP on the factory floor. Hughes, K. ..... Oct 156
Keys to the automation kingdom. Laduzinsky, A. ..... Feb 13
Lack of surface activity indicates a new turn in industrial control. Laduzinsky, A. ..... Nov 13
LAN and MAP: sharing the factory of the future. Smith, S. ..... Mar 208
Manufacturing systems integrated by information and control. Ash, R. ..... May 67
On closing the last control loop. Laduzinsky, A. ..... May 13
Once again, with feeling: CIM is not MIS (ED) Apr 81
Process industries initiative—think of the MAP possibilities (N) ..... Sep 36
Should you connect CNC to CIM or first convert to DNC? Morris, H. ..... May 56
Special report: manufacturing technology. Paris, M. ..... Mar 111
Trends in control (The real action is in manufacturing automation) ..... Jan 160
Trends in control (Very few plants come close to full automation) ..... Apr 236
Trends in control (Retrofitting with control systems) ..... Jul 128

**MAP**
A MAP/TOP specification update. Crowder, R. ..... 2Oct 18
A-B and Concord complete MAP interoperability testing (N) ..... May 22
Allen-Bradley signs MAP agreement (N) .... Nov 28
Big and small of industrial control. Laduzinsky, A. ..... Oct 13
Concord, AT&T jointly develop MAP on fiber optics (N) ..... 2Oct 11
Corporation for Open Systems adds four (N) ..... Jul 24
Dance to the music. Laduzinsky, A. ..... 2Oct 4
Data General, A-B, in MAP agreement (N) 2Oct 11
Evolving networks for plant-wide information and control systems. Thurston, C. ..... Sep 284
GM's McDonald: proud of MAP (N) ..... 2Oct 8
Honeywell to participate in OSINET (N) .... 2Oct 12
IBM, INI jointly develop PC-MAP interface (N) ..... 2Oct 11
Implementing MAP on the factory floor. Hughes, K. ..... Oct 156
Intel and INI to market MAP products (N) . Jul 23
LAN and MAP: sharing the factory of the future. Smith, S. ..... Mar 208
Learning more about MAP and TOP (N) ... Jan 25
MAP: a matter of cooperation. Laduzinsky, A. ..... Apr 115
MAP and the process industries. Merrick, M. 2Oct 26
MAP miscellany (N) ..... Jun 23

MAP network management and administration. Morris, G. ... 2Oct 23
MAP/TOP specifications are a reality (N). ... Jul 21
Microcosmic control: Part 2. Laduzinsky, A. ... Jan 13
Migrating toward MAP. Zak, M. ... 2Oct 20
Movement around MAP continues to accelerate. Laduzinsky, A. ... 2Oct 16
NBS picks MAP test system(N) ... Dec 23
New MAP networks accommodate existing plant systems. Trotter, G. ... Nov 105
On closing the last control loop. Laduzinsky, A. ... May 13
Participation invited on network layer standards (N) ... May 24
Process industries initiative—think of the MAP possibilities (N) ... Sep 36
Remember those Trojans. Laduzinsky, A. ... Jul 13
Slow seems the road to MAP. (ED) ... 2Oct 13
TI and Touch join in MAP/TOP demonstration (N) ... Jun 21
Using RS-511 for real-time communications in the factory. Sweeton, D. ... Nov 111
Working MAP demonstration in United Kingdom (N) ... 2Oct 12

**MEMORIES**

Bubble memory system replaces disk drives. Babb, M. ... Oct 86
Control system memories: help yourself to all you want. Babb, M. ... Jun 59
Core memories for work at 200 C. ... Apr 68
Genealogy of tape technology. Thawley, T. ... Aug 82
Inexpensive black box expands memory on CNC machine tools ... Apr 72
Memory moves across the factory floor ... Oct 46
Selecting memory for the STD Bus. Schmidt, F. ... Dec 70

**MICROCOMPUTER BOARDS**

32-bit processor on a 16-bit bus. Budzinski, M. ... Mar 84
Bus eases overhead, simplifies use ... Sep 81
BUSCON/86 East: board-level strategies (N) ... Sep 29
Conformance issues become prime target for revised standards. Whitinger, B. ... Aug 70
Genealogy of tape technology. Thawley, T. ... Aug 82
Industrial strength microcomputer coordinates motion control ... Jul 34
Intelligent I/O family responds to automation requirements. Ian, A. ... Mar 86
J11-based board interfaces VAX or microVAX to VMEbus. Laduzinsky, A. ... Aug 76
Lab certifies VMEbus boards (N) ... Jan 25
Of boards and buses. Laduzinsky, A. ... Jun 13
Personal computer backplanes and other connections. Laduzinsky, A. ... Jun 48
Selecting memory for the STD Bus. Schmidt, F. ... Dec 70
Siemens supports Multibus II architecture (N) ... Jul 25
Sixteen bits on the STD Bus: two methods of implementation. Steele, B. ... Dec 68
Standard backplanes: new perspective on industrial control. Laduzinsky, A. ... Jun 47
Standard board-level computer functions still evolve. Laduzinsky, A. ... Jun 52
STD Bus goes after midrange programmable controllers. Virgo, P. ... Dec 75
STD Bus moving on to 16 bits. Babb, M. ... Dec 61
Using the STD Bus as an auxiliary I/O bus. Lehrbaum, R. ... Dec 72
Variations on a bus. Laduzinsky, A. ... Mar 81
VMEbus delivers promised performance. Laduzinsky, A. ... Aug 65
X.25 multibus boards for access to wide area networks. Sherrod, D. ... Mar 90

**MICROPROCESSORS**

32-bit processor on a 16-bit bus. Budzinski, M. ... Mar 84
ISSCC/86: systems on a chip. Kompass, E. ... Apr 125

**MINICOMPUTERS**

Intel and customers to develop real-time system (N) ... Jan 21
Minicomputers in control: optimized for performance. Babb, M. ... Apr 108
Minicomputers need board-level functionality too. Laduzinsky, A. ... Jun 51

**MONITORING AND ANNUNCIATING**
**see Data display**

**MOTION CONTROL**

Industrial strength microcomputer coordinates motion control ... Jul 34
Measuring and controlling the position of things: the third level. Morris, H. ... Dec 53
Parabolic velocity profile allows maximum stepper torque. Palmin, S. ... Feb 62
Servomotor and stepper: key elements of motion control. Bailey, S. ... Feb 55
Trends in control (Intelligent motion control) ... May 164

**MOTORS AND CONTROLLERS**

AC motor drives 1986: silicon devices up regulation. Bailey, S. ... Apr 101
Digital control advances simplify applying dc motor drives. Bailey, S. ... Sep 137
Energy-saving motor controllers. Jayaram, M. ... Feb 144
Monolithic digital pulse width modulator simplifies servomotor control ... Sep 84
Motor controllers get smarter. Blickley, G. ... Apr 135
Stepper motor control using EMF commutation. King, K. ... Dec 144

## O

**OBJECT DETECTION AND IDENTIFICATION**
**see Positioning**

**ON-LINE ANALYZERS**

On-line analyzers—searching for in-line status. Blickley, G. ... Dec 40

## P

**PERSONAL COMPUTERS**

Future for PCs in industrial control (ED) ... Nov 69
HP debuts high-end workcell control; industrializes Vectra (N) ... Aug 21
ISA show: displaying the IBM PC bus (N). ... Nov 25
New industrial personal computers combine MS-DOS, Unix. Babb, M. ... Sep 157
Personal computers for ladder logic and documentation. Babb, M. ... Jul 47
Riding on the PC bus: new avenues to industrial automation. Babb, M. ... Oct 64
Serial bus puts personal computer in distributed control. Babb, M. ... Oct 62
Software power is value added to IBM PCs in control. Bailey, S. ... Jun 81

**PNEUMATICS, see fluid power**

**POSITIONING**

Measuring and controlling the position of things: the third level. Morris, H. ... Dec 53
Object identification takes many shapes and stripes. Laduzinsky, A. ... Oct 81
You can't automate if you don't know where things are. Morris, H. ... Feb 67

**POWER SUPPLIES AND CONTROLLERS**

Adaptive switching power supply. Williamson, F. ... Apr 222
Power integrated circuits: know the limitations. Payne, H. ... Jul 122
Power supplies keep in solid state step with advances. Bailey, S. ... Jan 78
Proton-conducting polymer suits many applications (N) ... Jan 30

**PRESSURE**

Chips to transmitters: new pressure technology gets going. Babb, M. ... Jan 64
Silicon capacitive pressure sensors vie with piezoresistive. Morris, H. ... Sep 129
Steam regulator eliminates fluctuations, achieves payback in two months ... Nov 60
Temperature and pressure switches: guardians of loops. Bailey, S. ... Aug 47

**PROCESS CONTROL**

12th Advanced Control Conference: advanced techniques that made it. Morris, H. ... Jul 67
Artificial intelligence in industry: expert knowledge bases in control loops. Bailey, S. ... Dec 45
Big and small of industrial control. Laduzinsky, A. ... Oct 13
Computers' destiny—stand alone or embedded in process. Bailey, S. ... Oct 68
Control grows upward from the process (ED) ... Oct 39
Control moves closer to the process. Blickley, G. ... Sep 150
Controllers in the field: at last! (ED) ... Aug 37
Future for PCs in industrial control (ED) ... Nov 69
Lack of surface activity indicates a new turn in industrial control. Laduzinsky, A. ... Nov 13
Process-embedded decision booms in distributed control. Bailey, S. ... Nov 80
Software packages let control engineers set strategies. Babb, M. ... Oct 57
Trends in control (Process companies cutting back control engineers) ... Jun 182
Trends in control (Control engineers available) ... Aug 150
Trends in control (Cutbacks in control engineering staffs) ... Oct 162
Trends in control (The cost of long term benefits) ... Nov 178
Two new distributed process control systems. Laduzinsky, A. ... Jan 84
Would SCADA by any other name still be the same? Laduzinsky, A. ... Feb 72

**PRODUCTIVITY, MANAGEMENT, AND CONTROL**

Management's 1986 act: reorganize! (ED) ... Feb 49
Should product planning follow markets or technology? Kompass, E. ... Dec 13
Steam regulator eliminates fluctuations, achieves payback in two months ... Nov 60
Trends in control (The cost of long term benefits) ... Nov 178
Trends in control (Acquisition mania) ... Feb 152
Trends in control (The real action is in manufacturing automation) ... Jan 160
Trends in control (Cooperation between end users and control suppliers) ... Mar 216
Trends in control (Finding the perfect discrete part manufacturing control engineer) ... Dec 154
Trends in control (Process companies cutting back control engineers) ... Jun 182

**PROCESS CONTROLLERS**

Controllers in the field: at last! (ED) ... Aug 37
Designing a programmable controller using binary decision logic. Baracos, P. ... Jun 174
Process controllers prosper. Morris, H. ... Mar 58
Temperature control 1986: pacing plant automation. Bailey, S. ... May 80

**PROCESS CONTROL SYSTEMS**

Artificial intelligence in industry: expert knowledge bases in control loops. Bailey, S. ... Dec 45
Control moves closer to the process. Blickley, G. ... Sep 150
Distributed control system with parallel processing. Kompass, E. ... Jul 62
Efficient process control system keeps Disney community bright ... Sep 90
Horizon plant. Dallimonti, R. ... May 72
Lack of surface activity indicates a new turn in industrial control. Laduzinsky, A. ... Nov 13
Manufacturing systems integrated by information and control. Ash, R. ... May 67
Process-embedded decision booms in distributed control. Bailey, S. ... Nov 80
Trends in control (Retrofitting with control systems) ... Jul 128
Two new distributed process control systems. Laduzinsky, A. ... Jan 84
Would SCADA by any other name still be the same? Laduzinsky, A. ... Feb 72

**PROCESS CONTROL VALVES, see Valves**

**PROGRAMMABLE CONTROLLERS**
1986 programmable controller update. Flynn, R. ... Jan 50
Graphics package for access to programmable controllers. Babb, M. ... Mar 79
Growth potential up for programmable controllers (N) ... Mar 28
Personal computers for ladder logic and documentation. Babb, M. ... Jul 47
Programmable controllers of the future. Quatse, J. ... Jan 59
Programmable controller conference—new products guide. Flynn, R. ... Mar 47
STD Bus goes after midrange programmable controllers. Virgo, P. ... Dec 75

**PROGRAMMING, see Software, control**

## R

**RELAYS AND SWITCHES**
Electromechanical relays for surface-mounted applications ... May 40
Micro Switch adds fiber optic switches and sensors (N) ... Jun 26
Relays and switches proliferate in control systems. Flynn, R. ... Nov 90
Temperature and pressure switches: guardians of loops. Bailey, S. ... Aug 47

**ROBOTS**
Controlling multiple robot arms. Morris, H. . Sep 144
Conversing with computers and robots. Morris, H. ... Aug 55
Making robots safe. Morris, H. ... Apr 130
Robots 10 report (N) ... Jun 26
Robots see in 3-D. Morris, H. ... Jan 72

## S

**SAFETY**
Making robots safe. Morris, H. ... Apr 130
Out of control at Chernobyl (N) ... Jul 21

**SENSORS**
Control switches safeguard pipeline's compressor stations ... Feb 44
Data acquisition on track ... Sep 76
Flow control 1986: smart meters essential to compete. Bailey, S. ... Mar 63
Flow lab automates with computer to obtain higher accuracy ... Dec 32
Improving IR measurement accuracy. Cardarelli, J. ... Oct 152
Level sensing technology rises to logistic demand. Bailey, S. ... Jul 73
Measuring and controlling the position of things: the third level. Morris, H. ... Dec 53
Micro Switch adds fiber optic switches and sensors (N) ... Jun 26
Object identification takes many shapes and stripes. Laduzinsky, A. ... Oct 81
On-line analyzers—searching for in-line status. Blickley, G. ... Dec 40
Safe and efficient combustion control requires selecting the right sensors. Pocock, R. ... May 155
Selecting the proper position sensor. Overcash, D. ... Sep 294
Silicon capacitive pressure sensors vie with piezoresistive. Morris, H. ... Sep 129
Temperature control 1986: pacing plant automation. Bailey, S. ... May 80
Temperature and pressure switches: guardians of loops. Bailey, S. ... Aug 47
You can't automate if you don't know where things are. Morris, H. ... Feb 67

**SERVOS**
Monolithic digital pulse width modulator simplifies servo motor control ... Sep 84
Servomotor and stepper: key elements of motion control. Bailey, S. ... Feb 55

**SIGNAL CONDITIONERS AND CONVERTERS**
Field multiplexer reduces process control costs. Del Valle El Cid, J. ... Jan 148
Modular packaging impacts signal conditioning and control. Laduzinsky, A. ... Sep 154
Smart transmitters in control: new performance, benefits. Babb, M. ... Sep 120

**SIGNAL TRANSMISSION see Data transmission**

**SOFTWARE, CONTROL**
A-B announces software (N) ... Jan 23
Graphics package for access to programmable controllers. Babb, M. ... Mar 79
Intel, Microsoft develop systems design (N) Nov 31
Modcomp Inc. to market real-time graphics software (N) ... Mar 28
Software expands industrial control. Laduzinsky, A. ... Jul 42
Software packages let control engineers set strategies. Babb, M. ... Oct 57
Software power is value added to IBM PCs in control. Bailey, S. ... Jun 81

**SPEED CONTROL**
AC motor drives 1986: silicon devices up regulation. Bailey, S. ... Apr 101
Digital control advances simplify applying dc motor drives. Bailey, S. ... Sep 137
Motor controllers get smarter. Blickley, G. . Apr 135

**STANDARDS**
A MAP/TOP specification update. Crowder, R. ... 2Oct 18
Bitbus network development simplification (N) ... Feb 20
Computer-based control standards develop. Laduzinsky, A. ... Mar 13
Conformance issues become prime target for revised standards. Whitinger, B. ... Aug 70
Control standards!!! Laduzinsky, A. ... Apr 13
Corp. for Open Systems expands participation (N) ... Mar 24
Corporation for Open Systems adds four (N) ... Jul 24
COS invites international membership; adds members (N) ... Aug 22
DEC announces new minis and bibus architecture (N) ... Mar 23
MAP/TOP specifications are a reality (N). Jul 21
NBS picks MAP test system (N) ... Dec 23
Participation invited on network layer standards (N) ... May 24
Remember those Trojans. Laduzinsky, A. .. Jul 13
RS-511 nears reality for layer seven. Hagar, M. ... 2Oct 32
Selecting the proper position sensor. Overcash, D. ... Sep 294
UL issues first Japanese factory registration (N) ... Feb 19

**STEPPER MOTORS, see Actuators**

**SUPERMICROCOMPUTERS AND SUPERMINICOMPUTERS**
Motorola strengthens its supermicrocomputer market (N) ... Nov 29
Superminicomputers for industrial control? (ED) ... Jul 41

**SWITCHES, see Relays and switches**

**SYSTEM ANALYSIS AND DESIGN**
Horizon plant. Dallimonti, R. ... May 72
Manufacturing systems integrated by information and control. Ash, R. ... May 67

## T

**TEMPERATURE**
Improving IR measurement accuracy. Cardarelli, J. ... Oct 152
Temperature control 1986: pacing plant automation. Bailey, S. ... May 80
Temperature and pressure switches: guardians of loops. Bailey, S. ... Aug 47

**TESTING, including production test**
Control and on-line testing combine for quality. Laduzinsky, A. ... Nov 99
Flow lab automates with computer to obtain higher accuracy ... Dec 32
NBS picks MAP test system (N) ... Dec 23
UL issues first Japanese factory registration (N) ... Feb 19

**TRADE SHOWS**
12th Advanced Control Conference: advanced techniques that made it. Morris, H. Jul 67
AIChE to meet in Boston (N) ... Aug 23
AMS/86: large IMPACT (N) ... Aug 21
BUSCON/86 East: board-level strategies (N) ... Sep 29
BUSCON/86 West applauded; BUSCON/86 East is Sept. 23-25 (N) ... Mar 23
Computer integrated manufacturing to star at Autofact/86. Axelson, B. ... Oct 76
Control Expo/86 exhibitor and product guide. Flynn, R. ... Apr 82
Control Expo/86 to convene in Chicago, May 6-8 (N) ... Apr 23
Control Expo/86: attendance grows to 10,500 (N) ... Jun 21
Control product guide to Design Engineering Show. Flynn, R. ... Feb 50
Control's computer-based future set fair at Interkama (N) ... Dec 19
Design Engineering Show set for Chicago (N) ... Feb 19
DEXPO West report ... Dec 24
Factory or process plant: Conference covers both. Blickley, G. ... Apr 93
Guide to control products and papers: Petro Expo/86. Blickley, G. ... Mar 69
INTERKAMA/86 selects congress topics (N) ... Mar 26
INTERKAMA/86 to welcome 100,000. Axelson, B. ... Aug 61
International Programmable Conference at Detroit, April 8-10 (N) ... Mar 23
IPC/86: good show (N) ... May 21
ISA/86 exhibitor/new product guide. Flynn, R. ... Sep 98
ISA papers cover new technology and applications. Laduzinsky, A. ... Sep 114
ISA show: displaying the IBM PC bus (N). Nov 25
Machine Tool Show sets new records (N) Oct 23
Message of Vision/86 is "endeavor to persevere" (N) ... Jul 25
MESUCORA and ELEC combine for giant expo (N) ... Jan 21
New Orleans hosts Petro Expo/86—AIChE petrochemical exposition (N) ... Mar 23
Petro Expo/86: slow, but good for control (N) ... May 21
Programmable Controller Conference—new products guide. Flynn, R. ... Mar 47
Robots 10 report (N) ... Jun 26
Semicon West report (N) ... Aug 22

## V

**VALVES**
Materials changing in process control valves. Blickley, G. ... Sep 132
Servo valve becomes digital actuator. Blickley, G. ... Jun 76

**VISION, see Machine vision**

## W

**WEIGHING AND BATCHING**
Batch applications proliferate: control system manufacturers respond. Morris, H. ... Jul 54
